

Individual Report

Test 08-527:

Firearms Examination

Participant Code: **U1234A**

WebCode: **ABCDEF**

Test Summary: Each sample pack contained four items: Items 1, 2, and 3 each consisted of one expended bullet "recovered from the cardboard display" and Item 4 consisted of three bullets fired in the "suspect weapon." Item 1 was fired from the same firearm as the test-fired bullets (Item 4). Items 2 and 3 were fired from a second firearm. (Please see the Summary Report for additional summary comments and information.)

Examination Results				
Were any of the questioned bullets (Items 1-3) fired in the same firearm as the known bullets?				
		<u>Item 1</u>	<u>Item 2</u>	<u>Item 3</u>
	Participant U1234A	Yes	No	No
<i>Response Summary</i>	Yes	165	2	2
	No	1	134	136
Participants: 166	Inc	0	30	28

Conclusions	
A microscopic examination and comparison was conducted on Items 1, 2, 3 and 4. Item 1 was positively identified as a match to test fires from Item 4. Items 2 and 3 did not match test fires from Item 4. However Items 2 and 3 were positively identified as being matched to each other.
