## Test 08-524:

### Handwriting Examination

Participant Code: **U1234A**

WebCode: **ABCDEF**

Test Summary: Each sample pack contained photographs of three questioned "log-in forms" (Q1, Q2 and Q3) and known writings of three persons (K1, K2 and K3). The texts and signatures on Q1 and Q3 were written by K1. The text on Q2 was hand printed by K2. The signature on Q2 was prepared by K2 who was instructed to only produce a wavy line without enough characteristics to permit identification. The K3 writer did not prepare any of the questioned material. *(Please see the Summary Report for additional summary comments and information.)*

#### Examination Results

#### Conclusions

1. There is very strong support for the proposition that the questioned handwriting and signatures appearing on the log-in forms Q1 and Q3 were written by the writer of the comparison Drake RAMORE samples. 2. There is very strong support for the proposition that the handwriting appearing on the questioned log-in form Q2 was written by the writer of the comparison Hans GRUBER handwriting sample. 3. No opinion can be expressed as to authorship of the questioned signature appearing on log-in form Q2 as it does not resemble the signatures of any of the comparison writers.

#### Additional Comments

The signature on Q2 may have been written by the writer Drake RAMORE using a disguise process; or by either of the other writers, or someone else, without any regard to the characteristics of the genuine RAMORE signature.
