

# Individual Report

Participant Code: **U1234A**

## Test 08-529:

WebCode: **ABCDEF**

### Toolmarks Examination

**Test Summary:** Participants were provided with a lockback knife (Item 1) and two sections of vinyl tubing containing questioned tool marks (Items 2 and 3). For each sample pack, the Item 3 tubing was punctured with the Item 1 lockback knife. The Item 2 tubing was punctured by a double bladed knife that was not provided. (Please see the Summary Report for additional summary comments and information.)

Examination Results			
Were the toolmarks on either of the punctured tubings (Items 2 or 3) produced by the Questioned Lockback knife (Item 1)?			
		Item 2	Item 3
<b>Participant U1234A</b>		No	Yes
<b>Response Summary</b>	Yes	2 (1%)	138 (91%)
<b>Total Participants: 152</b>	No	80 (53%)	1 (1%)
	Inc	70 (46%)	13 (9%)

Conclusions	
The exhibit knife, marked Item 1 was used to cut the damaged black tubing marked Item 3. The damaged black tubing marked Item 2 was not cut by the knife marked Item 1.	
Additional Comments	
Class and individual characteristics of Item 2 indicated an elimination against Item 1.
